Subotica, June 01, 1993

Dear Comrade Flavio,

I am taking this opportunity to send my warm regards to you and your colleagues, especially those who are on the same political line as you are. We are working on preparing all conditions for realisation of twinning-jumelage between ARCINOVA and Open University which will be the real example from one Western country that one organisation is willing to bridge all gaps based on exclusivity, and to help work on peaceful resolution of conflicts. I am strongly convinced that our twinning will be successful and that we can together give lesson to other that it is possible and necessary to work jointly on spreading ideas and activities which helping to build sense of humanism, solidarity and openness for communication in the times when people rather dividing than connecting each other. You will during these days discuss with Vedran Vučić a variety of things which will be the beginning of our work with you and please do not hesitate to contact us or to send message by Vedran about any requirement you might have.

Thank you again on your solidarity and support you have given to Open University.

Thank you in advance,

Flavio Mognelli  
Director - Open University

Subotica, April 15, 1993

Dear Sergio,

Thank you very much to you, Flavio and all your colleagues who visited Subotica during the Eastern. We are very glad that we had an opportunity to speak together and to meet each other in an atmosphere of friendship and trust. Your help i.e. didactic material is of the very importance for us.

So, thank you very much again and we hope that we shall see each other frequently in the future.
